

**SPARKLING INTERIOR**—Maryann's Beauty Cottage, recently opened at 24051 Ocean Ave., Waverly, has a lovely interior, as can be seen above. The shop is owned and operated by Mary Vojtecky, who brings to her new shop many years of excellent training and experience, including Clifton Beauty Salon in Redondo. In addition to the expected beauty services of hair cutting, shampooing, styling, permanent waving and hair rinsing, Miss Vojtecky does manicuring. Another unusual service she offers is eyelash and eyebrow tinting. Since her opening, March 31, she has been giving her customers the luxury of a complimentary facial with Jafra Cosmetics along with their shampoo and set or whatever they are having done. Recent surprise addition to Maryann's Beauty Cottage is a body toner and reducing machine. Customers may have a truly complete beauty treatment when they visit Maryann's. A call to FR 5-2895 will enable you to make your appointment. Maryann's Beauty Cottage is open daily and on Wednesday and Thursday evenings for those who are unable to come in during the day.

### City Use of Radar Delayed

A motion to use radar here on a test basis in a war on speed was tabled for a week until legal technicalities can be straightened out.

At the same time the City Council hassled about recommendations for three signals and 10 boulevard stops recommended by the Traffic Commission.

"How long will it be before we get stop signs on all corners in the city?" asked Councilman J. A. Beasley. "Pretty soon we'll be running out of corners."

Councilman Nicholas O. Draier, chairman of the commission, conceded that numerous signs are being posted, but argued that they had been requested by residents as a safety measure.

"You mean if I ask for a boulevard stop I'll get one?" Beasley wanted to know.

Then he asked what happened to three signals ordered for the downtown area, since several other more recent signals were also to be placed on a priority list.

Draier said he will ask \$50,000 for signals in the new budget to be installed following the completion of a priority list.

### Check Artist Trapped After Traffic Ticket

A traffic citation in Gardena led to the arrest of Guy Roger Gill, 42, of Inglewood, on charges of issuing worthless checks here.

Det. Sgt. Mickey Fischer said that the suspect was placed on probation on similar charges last February, but that he allegedly started issuing bad checks a week later.

Gill assertedly passed out \$10 checks to service stations in the area.

### OBITUARIES

**BOWLING, JAMES FRANK SR.**, age 71, of 1302 West 28th St., Native of Alabama, survived by wife, Florence; two sons, Frank and Dan; four daughters, Mrs. Orla Day, Mrs. Ed Hartington, Mrs. Eldred Allen and Mrs. James Hedgcock; sister, Mrs. Bernice Batchlor; brother, H. ### Letters to The Editor

To the Editor:

Since Councilman George Bradford is so quick to criticize the local school district for not disposing of weeds on some of its properties, I thought Mr. Bradford might be interested in knowing that various city owned property is infested with weeds, also.

I notice Ocean Avenue from 250 street south has nearly grown closed with weeds; there are weeds around city owned drainage sumps; there are weeds all through the city wined tree row along Plaza del Amo from Arlington to the school district's administration property; there are weeds on the large mound of earth in the heart of the city dump; there are weeds in the backyard of Councilman Bradford's own city hall.

Now I am not requesting that the city remove these weeds, for I know there are handicaps in the operation of any publicly owned agency. I do wonder, though, why Councilman Bradford is so eager to criticize his neighbors when there is work to be done at home?

L. L. RICE  
2047 Kathy Way.

To the Editor:

I see in your paper that one councilman is upset because the new shopping centers don't have the name Torrance in them.

Also you can't even get candidates for the Miss Torrance contest.

Going back a while, I know that Hollywood Riviera people don't like the name Torrance and neither do those in Waverly.

Maybe what's needed is to change the name of our own town from Torrance to Hollywood Riviera or something more glamorous in order to get some civic pride in this town. The name of Torrance does not sound very impressive. No wonder there is so little civic spirit.—A Riviera Resident.

To the Editor:

I saw in your paper that one elementary school principal has finally got the courage to tell the boys to clean themselves up and comb their hair.

This man should get a lot of credit for finally doing something about the sloppy way a lot of the school children dress.

All I can say is that many parents should be ashamed to let their youngsters go to school looking so unkempt that finally the school people have to lay down the law. I think the parents should be the ones to take care of that part.

Very truly,  
A Parent.

### WINS SCHOLARSHIP

John Appel, student body president and top honor student at Serra High School, Gardena, is among the 12 high school seniors from this area named Zone 6 winners Thursday in Bank of America's annual state-wide Achievement Awards program.
